Dear People:

2010 marks 8 years of very successful marketing, the superfood of shelled hemp seeds. Last month we introduced the OMEGA Brand. This new shelled hemp seed brand are being very quickly excepted by our customers to be equal or better to the high standard of the Hemp Hearts, they've experienced for up to 8 years we've supplied them.

OMEGA gives us the opportunity to supply the seeds in bulk. \$90.00 for 10 lbs. Represents affordable economics in today's economy.

ACHIVA - Protein, Fiber, Green Combination, new product by Hempco Canada. Information available www.hempcocanada.com

Customer purchases by cheque have proven very successful. You are invited to continue your phone commitments by cheque.

US customers are now included in free shipping on orders over \$150.00 (excepting the hemp seeds).

For our customers convenience and online security we've added PayPal credit card purchases. We also can invoice purchases on line by your email address through PayPal.

Thank you for your continued purchases.
